1. The following table concerning the reduction of the industrial capacity in the Russian Zone as a result of war damage and dismantlings was compiled by the Central Administration and gives the status as of early November 1946. [REDACTED] that some of these figures have to be increased, since at that time dismantlings which are not included in this list were in progress.

25X1A

Branch of Industry	Dismantling	War Damage	Total
Foundries and rolling mills	80 %	7 %	80%
